1. First, ensure your own safety.
 - a. Move to the nearest location that can be secured by a locked door.
 - b. If a locked door is not available, move as far away from the threat as possible.
 - c. Remain quiet and do not do anything that will draw attention to you.
2. Assist others if possible
 - a. Allow other trusted individuals into your secure location.
 - b. Instruct them to stay calm and quiet.
 - c. If you know where the intruder (or source of the security threat) is, and it is safe to do so, contact Campus Police immediately at x3067 or (315) 593-9367.
3. When the security threat is over, Campus Police will move through the entire building and notify everyone that the threat is gone.

WEATHER EMERGENCIES

1. If possible, check the College website and monitor local television and radio stations for announcements.
2. Determine where you will take shelter if instructed to do so.
 - * Basements provide the best protection.
 - * If underground shelter is not available (or not advisable due to the situation), go to an interior room, or hallway on the lowest floor possible.
 - * Stay away from windows, doors, and outside walls. Go to the center of the room. Stay away from corners because they attract debris.
3. Stay in the shelter location until the danger has passed.
4. You may be instructed to drop and cover under a table or desk or against an inside wall –NOT in a doorway.

POWER OUTAGE

- * Move cautiously to a lighted area.
